Norix Firehouse Furniture

Norix Fire & Rescue Furniture

Norix fire station furniture is designed to endure 24/7 use and provide long-term value for those station houses looking to purchase products that are especially designed for their facilities. We offer a full line of durable, firehouse furniture that includes:

- Steel, firehouse beds and chests with laminate headboards and drawer face options that come as singles or bunk beds
- Multiple dining and lounge chair seating options that provide comfort, variety and extreme durability
- Mattresses that are highly sanitary, easy to clean and bed bug resistant
- Fire station tables that come with legs, fixed seating, x-base or cylinder base options
- Task and side chairs for office, training and community rooms

Our specially designed fire station furniture offers maximum durability with a residential look and can be found in firehouses across the country.

23 Mirrors

Panel Base Bed

Available in Panel Base Bed, Bunkable Panel Base Bed and Panel Base Bunk. Steel deck, steel end frames for optional bunking. Ships K.D. Optional headboard, footboard, bunk-locking clamps, bottom closure panel, ladder and safety rails.

Frame Style Bed

Frame style bed with steel deck mechanically fastened to steel end frames. Available in Bunkable Frame Style Bed or Frame Style Bunk.

Spring Bed Series

Spring deck bed with deck mechanically fastened to steel end frames. Available in Bunkable Spring Deck Bed and Spring Deck Bunk Bed. End frames have plastic adapter caps inserted into vertical members to allow bunking without additional parts or tools.

Lift Deck Series

Lift deck bed with recessed padlock hasp and gas springs with dynamic dampening. Available in Lift Deck Bed and Bunkable Lift Deck Bed.

Nightstand

Steel nightstand with two tamper-resistant drawers. Drawers feature padlock hasp locking mechanism. Institutional-grade laminated top. Optional matching laminated drawer fronts.

Chest

Steel chest with institutional-grade laminated top. Tamper-resistant drawers. Available in 2, 3 and 5 drawer chests. Drawers feature padlock hasp locking mechanism. Optional matching laminated drawer fronts.

Drawer Locker

The Titan® Drawer Locker is sized to fit underneath Titan® Bunkable Frame Style Beds. The drawer slides are welded to the drawer body and are built with no moving parts. Features a padlock hasp locking mechanism, non-adjustable floor glides, ganging capability and a 2" caster that supports the front of the drawer when open.

Table Desk

Steel desk with institutional-grade laminated top. Includes pencil drawer. Adjustable floor leveler glides.

Titan® Series

Looking for residential furniture that can endure years of intensive-use in your facility's demanding environment? The Titan® Series from Norix – a complete line of steel case goods that combines functional versatility with the extreme durability of all-steel construction. There's no substitute for the strength, safety and durability of steel furniture, and Titan has emerged as the product of choice in firehouses across the country. Titan was designed to perform in the most challenging environments. Titan is an ideal choice to replace problem wooden furniture. Titan products are heavy ... and heavy duty. You don't have to worry that they'll be broken through intensive-use. Steel stands the test of time, and provides the best value option. Titan delivers worry-free performance.

Protégé™ Series

If you are looking for highly durable firehouse furniture with a sleek design, look no further than Norix's Protégé – a value-driven series of products designed for constant use in environments that historically have been institutional in nature.

Bunkable Bed

All steel construction with welded tubular bed deck and 36" x 80" sleep surface static load tested to 600 lbs. Integrated steel headboard and footboard is available with optional wood grain laminate headboard/footboard. With optional Bunk Bed Kit, bunkable end frames stack securely to create a bunk bed. Assembles in minutes with simple tools, all hardware included. Shown with Protégé Under Bed Storage.

Locker

This 18 inch wide freestanding single door locker is perfect for personal storage such as shirts, pants, jackets and other apparel that needs to be hung up.

Under Bed Storage

This two-drawer system fits perfectly underneath our Protégé Beds and features adjustable floor glides and a hasp locking mechanism for privacy and security.

Nightstand

The Protégé Nightstand's cabinet body and shelves are constructed out of 19-gauge steel, while the top is made of a high-impact density fiberboard and durable high pressure laminate.

Comfort Shield® Rescue Sealed Seam Mattress

Rescue Series mattresses feature 100% sealed seams that are radio frequency welded and guaranteed not to break – for enhanced hygiene, security and durability.

Ideally suited for firehouse environments. Foam core for cushioned comfort with no inner springs. Separate or integrated pillow options. Available in standard sizes. Polyurethane coated cover with welded seams for enhanced hygiene and durability.

Color
Norix Blue

- Breathable vent system repels oil, water and bodily fluids

Comfort Shield® Dorm Series Sewn Seam Mattresses

Highly durable mattresses with antimicrobial nylon cover and anti-crease inverted seam. Available in two grade levels: economy Foam Core construction, and a Dual Comfort Foam Encased Innerspring construction. Comfort Shield Sewn Seam Mattresses carry a 3 year limited warranty, and comply with current flammability test standards.

Color
Navy

Shown on Bunkable Next Gen Bed

Anti-crease inverted seam construction uses fire retardant Kevlar® thread for strength and durability. Anti-microbial 210 Denier Oxford Nylon Cover, with polyurethane coating and laminated flame retardant barrier is moisture resistant, anti-bacterial, crack resistant and stain resistant. Available in two grade levels: Foam Core Construction and Dual Comfort foam Encased Innerspring.

Terra Series

Terra is a seating series from Norix with a wide assortment of offerings that allow facilities to create highly customized configurations from one product line. That means no more endless searching for furniture that meets your specific needs. Terra is tailored for one-stop shopping for highly durable and aesthetically pleasing integrated seating.

WE BUILT THE SOLID FOUNDATION

Make it your own with hundreds of custom options

Terra shown paired with Tabla, our laminated table solution that can add residential touches to lobbies, common areas and any other space that requires aesthetically pleasing and highly durable furniture. Available in standard or premium, small or large.

Tandem seating

Seats and backs are constructed with heavy duty wood encased in foam. Hundreds of upholstery options are available in different fabrics, grades and price points, giving facilities the opportunity to match the furniture to their space.

Many seat and back upholstery options

Arm caps are available in wood or polyurethane, while frames are constructed with black, taupe or silver steel. Upholstery is double stitched and attached with hidden staples, and secure hardware means products are safer and tamper resistant.

Forma Series

To provide customers and facilities with one source for all of their furniture needs, Norix has expanded its offerings with Forma, a modular upholstered seating line that is designed with attractive features and engineered to be highly durable. The ten pieces in this designer-friendly line of products – including arm chairs, cubes, benches and wedges – are ideal for lobbies, waiting rooms, staff areas and supervised areas such as group therapy and activity spaces.

CONFIGURE. CONFIGURE. CONFIGURE.
Maximum flexibility for every situation

Endless Configurations

Facilities can choose from plinth or steel bases, while Norix's expansive upholstery offerings give customers hundreds of options in different grades, fabrics and price points. Products can be bolted down, ganged or left free-standing, providing facilities maximum flexibility if new configurations are needed in the future or if furniture needs to stay in one place. Forma provides a high level of versatility and can help facilities with all of their furniture needs across their entire environment.

Harmony™

The Harmony Series blends form and function to deliver the unique combination of exceptional durability and a residential look for facilities that need residential products for their challenging environments. Limited lifetime warranty for structural integrity. In spite of that rugged interior, the Harmony Series is elegant, versatile and aesthetically pleasing.

Highly durable polyurethane arm caps are one piece, full length, and securely bolted to steel frame.

Superior Construction

Interior steel frame for unparalleled structural integrity. Arm chair weighs 130 lbs. Love seats, sofas, and benches offer the same construction with more seating options.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility. Both seat and back cushions are field replaceable.

Element™

Element is a designer-friendly series of lounge furniture that provides facilities with reliable performance. Mix and match the Element Lounge Chair, Love Seat and Sofa throughout your facility depending upon the needs of spaces.

Features and Benefits

Whether you are picking a lounge chair, loveseat or sofa, Element will add to or create an aesthetic appeal in dayrooms, lounges, lobbies or other areas in your facility where you need attractive furniture. Additionally, the series was designed to last and is appropriate for constant-use environments in facilities that see lots of traffic.

Durability

Element is highly durable due to construction and the materials. On the inside, Element is supported by a sturdy milled-wood frame that is connected with metal hardware to ensure durability and longevity. On the outside, the arm rests are protected and covered with a specially formulated arm cap. These arm caps are available in two colors – black and taupe – and are mounted to the wood frame with steel T-nuts.

Specially formulated arm cap attached to frame with T-nuts.

Clean Out between seat and back allows dirt and debris to fall to the ground rather than gather in chair.

Upholstery available in a variety of patterns and grades.

Frame is made of heavy duty milled wood for strength and durability.

Injection molded nylon feet are engineered for strength and to protect floors.

Generous seat width and cushioned support provide comfortable lounging.

Mix-Up™

Mix-Up is a new furniture line from Norix that allows you to use five different-shaped products to produce endless configurations. This diverse series is perfect for day rooms, lobbies or any area where playful, attractive and durable furniture is applicable. Endless upholstery options and three base colors allow facilities to pick an aesthetic that perfectly matches their environment. Choose products that are round, square, wedge, semi-circle and rectangle. Then ... well ... mix them up!

Hondo Nuevo® Series

A line of unique furniture that combines superior durability, comfort and style and that includes chair, bench and wedge options that allow for flexible, modular seating arrangements. Hondo Nuevo® is specially designed for facilities where robust products are a must.

Meets the stringent ANSI/BIFMA X5.4-2005 furniture standard, dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 750 lb static load while also Cal TB133 compliant.

Robust Durability

Smooth, exterior surface is impervious to fluids and highly puncture resistant, yet easy to clean and sanitize. Fabricated drip edge allows moisture to run off the chair and not into the base.

Seamless chemically resistant surface is easy to clean and sanitize.

Extremely durable, 1/4" thick rotationally molded skin is impervious to fluids and puncture resistant to 184 lbs.

TruColor™
Premium material is fully compounded for superior color, fire retardancy and quality assurance.

3 lb density polyurethane foam filling for cushioned comfort.

Five different shapes allow for endless configurations.

High density foam interior provides stability and comfortable sitting.

Enormous upholstery options in different grades, colors, patterns, materials and price points.

High-impact polyethylene bases available in three colors.

Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl for your facility. Both seat and back cushions are field replaceable.

Forté™ Lounge

Forté™ is the designer series of furniture that is fashioned for comfort, flexibility and durability. With a variety of colors to choose from and an upholstery option for seating, this series is perfect for fire stations and includes a lounge chair and guest chair that come with or without arms. These products are engineered and proven suitable for daily use in demanding environments.

Extremely durable, one-piece rotationally molded polyethylene seat is impervious to fluids and incredibly impact resistant.

Molded-in steel threaded inserts provide secure steel to steel connections and optional ganging side-to-side.

Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1000 lb static load while also CAL TB133 compliant.

Generous seat width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

TruColor™
Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Arm Lounge

This chair offers the same durability, flexibility and aesthetic design as our armless chair, with the addition of arms which provide hand over ankle positioning for easier egress.

Armless Lounge

Our armless lounge chairs are made of one-piece rotationally molded polyethylene seats and come with the choice of steel, wood or molded bases. The chairs come in a variety of colors and are pitched slightly back for comfortable sitting.

Sculpted shape provides an ergonomically comfortable sit.

One-piece rotationally molded polyethylene with lightly textured surface allows for easy cleaning.

Wink™ Lounge Series

This is Wink, a newly envisioned lounge chair with attitude, aesthetics and durability to boot. It's a cure for the ordinary, with a wide array of colors and fabrics to choose from. It's cool. It's hip. And its bold curves make other chairs seem ... well ... square.

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Smooth, continuous molded surface allows for easy cleaning.

Tamper-resistant steel encased floor glides for floor protection.

The seat features a side wipeout and back cleanout for easy cleaning.

Generous cushion width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Molded in access port with threaded screw cap for ballast weighting capability.

Reef	Mango	Orchid		

Sierra Series

At last, a complete line of lounge seating that combines intensive-use performance with the residential look of natural wood – the Sierra Series from Norix. There is no substitute for natural wood to create that soothing feel, residential look and sense of normalcy you're striving for. Constructed of natural oak butcher-block, the vertical end arms are designed to combine intensive-use durability with the beauty of natural wood. Each end arm is 1 3/4" thick, rounded for safety, and features a contemporary "sloped" design for comfort and stylish good-looks. Choose solid end arms or distinctive open end arm design.

Non-absorbent vinyl exterior rotationally molded over a tubular steel frame – then filled with soft, polyurethane foam.

Tested to 1,000 lb static load.

1 3/4" thick butcher-block red oak, rounded for safety, with sealer coat and satin finish coat to protect the wood.

Frame inside seat cushion is 2 1/4" diameter horizontal cross tubes structure of 18 gauge steel – to form a rigid interior framework and provide a secure means to connect cushions and end frames, as well as extend seating to two and three seat groupings.

3/8" tamper-resistant, Torx-head fasteners bolt right into the steel frame for a secure steel to steel connection.

Seat Color				Frame
Canyon	Wild Berry	Meadow	Pine Cone	Red Oak
Lagoon	Graphite	Raven		

Integra Armless

Integra chairs are specifically designed for intensive use applications, yet comfortable and lightweight. They're molded in one piece so you don't have to worry about assembled components coming loose. They're stackable and they pass the rigid California Technical Bulletin 133 Flammability Test.

Each chair weighs only 7 lbs so stacking 15 of them in a seven foot high space is easily accomplished.

Unique leg shape and 1 1/2" deep "X" ribs molded into the seat bottom for superior strength.

Molded from high-impact grade copolymer polypropylene with fire retardant additives. Passes the rigid California Technical Bulletin #133 Flammability Test.

Seat Color

Progress Seating

Progress is a passive ergonomic stackable chair. With a living hinge molded into the backrest, Progress is designed to supply a high level of back comfort in both upright and relaxed sitting positions. With or without upholstery, the Progress chair looks good in any environment. Pick from many different fabric grades to go with black legs and you have an attractive combination to accent a training room, a classroom, a lobby or an office.

Stacks 12 chairs high in 80".

One-piece injection-molded high-impact grade copolymer polypropylene.

Legs are powder coated black aluminum.

Living hinge for comfortable back flex.

Engineered to Endure. Tested to 750 lb static load and passes the stringent ANSI/BIFMA X5.1 furniture test.

Secure fitting leg without mechanical hardware.

Gibraltar™ Series

At last, a collection of in-line seating that delivers intensive-use security and durability in a sleek, contemporary design. Gibraltar is designed to survive the rigors of continuous use – and look great doing it.

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Extremely durable one-piece molded polyethylene seat and back. Smooth, seamless non-absorbent surface is easy to clean.

2" diameter, 14 gauge tubular steel, bent and welded to provide arm or armless in-line seating. Standard configurations for 1 to 4 people.

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1000 lb static load while also Cal TB133 compliant.

Heavy duty flat steel plate welded to the frame at each seat location to provide strength, support and a mounting platform on which the seat is securely attached.

Frame

CorrecTable® Series

You're looking for a lightweight folding table that is suitable for continual daily use. You don't want a table that has screws, nuts or bolts that can be taken apart - you want a table that can stand up to the rigors of an institutional environment. You want the Norix CorrecTable®.

Formulated for outdoor exposure with minimal fade or thermal stress cracking (indoor storage recommended).

15 gauge 2 1/2" wide Z channel spans full length on both sides. Channels support legs and are attached to top with security fasteners.

Blow-molded with a waffle designed bottom for exceptional strength mounted to a full length 14 gauge steel frame.

Folding wishbone design with no open ends.

Product tested to 500 lb static load.

Full circumference welds. Tamper-resistant feet. Gravity style slide lock.

Leg Style Series

When you start with 4" diameter 14 gauge tubular steel legs fully welded to 1/4" steel mounting plates, you end up with an incredibly strong, stable and durable table. The legs are joined to the top using tamper-resistant screws connected to embedded T-nuts, for a secure steel-to-steel connection. Optional 2 1/2" legs provide an attractive residential alternative. Legs are solid as a rock. The Leg Style Table won't wobble or tip. Lean on it with all your weight. That's peace of mind.

Permanently bonded to a core of 45 lb density M3 grade particle board with embedded T-nuts for securing top to base with a metal-to-metal connection.

Heavy duty leg style tables built for stability. Engineered and suitable for continuous daily use in a fire station environment.

Product tested to 1,000 lb static load.

Steel tubing welded to steel plate for attaching top.

Bottom of leg sealed by means of a fully welded inset threaded to accommodate an adjustable leveling glide.

Multi-Purpose Series

Most commercial tables are put together with easily removed screws, nuts, bolts, screw-out glides and snap-on parts. Norix created the Multi-Purpose Series of tables specifically to avoid those attributes so you don't have to think about the possibility of injury by altered furniture parts.

45 lb density M3 grade particle board with embedded T-nuts sandwiched with decorative laminate and backer sheet.

Product tested to 500 lb static load.

Edge is routed to receive glued and pinned black vinyl T-molding. 1 1/4" thick edge profile.

Heavy-duty construction with commercial grade laminate surface and glued and pinned T-mold edge. Legs fastened to embedded T-nuts.

12 gauge steel tubes, fully welded and sealed on exposed ends. Glides adjust for leveling, but are tamper-resistant as a security precaution.

Max-Master Series

Engineered for superior strength and durability, the Max-Master Series is particularly well suited for dining halls and dayrooms where reliable performance is a must. Whether bolted to the floor or freestanding on adjustable glides, the distinctive individual seat/leg design provides superior stability than traditional pedestal tables. Compression molded composite seats, premium table top and unique steel leg design deliver an exceptional table for continuous daily use in challenging environments.

Choice of 3 tops with 4, 6 or 8 seats. Engineered and suitable for continuous daily use in a firehouse environment.

Embedded T-nuts secure top to base with tight steel to steel connection for maximum long term reliability.

3" diameter, 14 gauge steel tubing.

13" diameter high density color impregnated compression molded composite that is highly scratch and stain resistant.

DuraVision™ Mirrors

DuraVision polycarbonate mirrors from Norix are designed specifically for challenging environments. The strength of polycarbonate combined with a solid, full foam backing and a unique steel frame design ensures these mirrors exceed the breakability of any other product on the market.

Norix Installation Services

Norix furniture is safe, secure and built to last ... providing outstanding long-term value and peace of mind for your staff. For facilities not using contractors or consultants, it makes sense to reinforce the benefits of the furniture with a installation from Norix.

Benefits of Installation Services:

- Expert installation services, performed by professionals experienced in all facility installations.
- Complex installation capabilities, including field drilling into concrete, secure bolt-down and application of security caulk.
- All labor, installation hardware and materials included.
- Seamless transaction on same purchase order as furniture.
- Reinforces product warranty.
