

Norix Testimonials

"First off, customer service is second to none. The products are durable, long lasting and are perfect for a jail or prison environment, not to mention for any other type of high traffic use. The Sheriff's Office has been purchasing from NORIX now for almost 30 years. That must tell you something. All furniture previously purchased is still in use today and in excellent condition."

Palm Beach County Sheriff's Office,
West Palm Beach, Florida

"Norix outfitted our new maximum security correctional facility with detention tables, Toughcare chairs, Integra seating, inmate property boxes, outdoor seating for staff, and several styles of tables that were used in both non-detention and detention areas. All of the equipment has been in use for 2 plus years with zero problems — no dents, etching, or breakage. The Norix line is well-thought out and capable of meeting the demands of today's correctional setting. We were fortunate to have Norix reps that went the extra mile from the start to completion of the project."

-Kerry Small Suffolk County Sheriff's Office

"I appreciate the quality of the Norix product line and the way they hold up inside a correctional environment. I have found few if any products that compare with the items I purchase from your company."

- Jason Stonier, Kennebec County Correctional Facility

"As a design professional working on criminal justice projects for almost 25 years, I have utilized Norix as a trusted resource. As a recognized leader in the market we continue to design around and specify their products. If we ever have a question or require assistance in assessing the most appropriate product for an application their technical staff are always available and helpful."

- Maynard Feist, Principal with Lionakis

Norix Justice Furniture

Corrections | Police | Detention

Norix Justice Furniture

For more than 30 years, Norix has specialized in providing high-quality correctional furniture that is manufactured and engineered for the security and extreme durability that is required in demanding environments. Norix provides specially designed detention furniture that's as tough as your facility – yet safe and secure for inmates and staff.

Our correctional facility furniture is the result of years of field research in environments like yours after consultation with justice architects, jail administrators, maintenance staff and corrections practitioners.

We offer a complete range of prison furniture for every corrections application, including cell furniture, dayroom furniture and other detention furniture for use throughout your facility. Norix jail products meet or exceed testing requirements for corrections furniture and are designed especially for challenging environments that need institutional-grade products that stand up to the strain of continuous use.

Terra Series

Terra is a seating series from Norix with a wide assortment of offerings that allow facilities to create highly customized configurations from one product line. That means no more endless searching for furniture that meets your specific needs. Terra is tailored for one-stop shopping for highly durable and aesthetically pleasing integrated seating.

WE BUILT THE SOLID FOUNDATION

Make it your own with hundreds of custom options

Terra shown paired with Tabla, our laminated table solution that can add residential touches to lobbies, common areas and any other space that requires aesthetically pleasing and highly durable furniture. Available in standard or premium, small or large.

Tandem seating

Seats and backs are constructed with heavy duty wood encased in foam. Hundreds of upholstery options are available in different fabrics, grades and price points, giving facilities the opportunity to match the furniture to their space.

Many seat and back upholstery options

Arm caps are available in wood or polyurethane, while frames are constructed with black, taupe or silver steel. Upholstery is double stitched and attached with hidden staples, and secure hardware means products are safer and tamper resistant.

Forma Series

To provide customers and facilities with one source for all of their furniture needs, Norix has expanded its offerings with Forma, a modular upholstered seating line that is designed with attractive features and engineered to be highly durable. The ten pieces in this designer-friendly line of products – including arm chairs, cubes, benches and wedges – are ideal for lobbies, waiting rooms, staff areas and supervised areas such as group therapy and activity spaces.

CONFIGURE. CONFIGURE. CONFIGURE.
Maximum flexibility for every situation

Endless Configurations

- Hundreds of upholstery options.
- Upholstery is double-stitched for extra strength and aesthetic appeal.
- No exposed staples.
- Series can be ballasted, bolted down or ganged together to limit movement.
- 10 pieces in series, including arm chairs, cubes, benches and wedges.
- Includes wood panel support with secure hardware.
- Plinth or steel base options.

Facilities can choose from plinth or steel bases, while Norix's expansive upholstery offerings give customers hundreds of options in different grades, fabrics and price points. Products can be bolted down, ganged or left free-standing, providing facilities maximum flexibility if new configurations are needed in the future or if furniture needs to stay in one place. Forma provides a high level of versatility and can help facilities with all of their furniture needs across their entire environment.

Forté™ Lounge Series

Forté™ is the designer series of furniture that is fashioned for comfort, flexibility and durability. With a variety of colors to choose from and an upholstery option for seating, this series is made to humanize intensive-use environments and includes a lounge chair and guest chair that come with or without arms. These products are engineered and proven suitable for daily use in demanding environments.

Extremely durable, one-piece rotationally molded polyethylene seat is impervious to fluids and incredibly impact resistant.

Molded-in steel threaded inserts provide secure steel to steel connections and optional ganging side-to-side.

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1000 lb static load while also Cal TB133 compliant.

Generous seat width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Forté™ Guest Series

Our guest chairs are made of one-piece rotationally molded polyethylene and are manufactured with ergonomic contours that provide comfortable support. These chairs are pitched slightly forward and allow for comfortable sitting at tables.

Extremely durable, one-piece rotationally molded polyethylene seat is impervious to fluids and incredibly impact resistant.

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Seamless, chemically resistant surface is easy to clean and sanitize.

Tamper-resistant steel encased floor glides for floor protection.

Generous seat width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Molded-in steel threaded inserts provide secure steel to steel connections and optional ganging side-to-side.

Molded in access port with threaded screw cap for sand ballast weighting capability.

Sculpted shape provides an ergonomically comfortable sit.

One-piece rotationally molded polyethylene with lightly textured surface allows for easy cleaning.

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 500 lb static load while also CAL TB133 compliant.

Wink™ Lounge Series

This is Wink, a newly envisioned lounge chair with attitude, aesthetics and durability to boot. It's a cure for the ordinary, with a wide array of colors and fabrics to choose from. It's cool. It's hip. And its bold curves make other chairs seem ... well ... square.

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Smooth, continuous molded surface allows for easy cleaning.

Tamper-resistant steel encased floor glides for floor protection.

The seat features a side wipeout and back cleanout for easy cleaning.

Generous cushion width coordinates with appropriate seat and arm height for proper ergonomics and easy egress.

Molded in access port with threaded screw cap for ballast weighting capability.

Hondo® Nuevo Series

A line of unique furniture that combines superior durability, comfort and style and that includes chair, bench and wedge options that allow for flexible, modular seating arrangements.

Hondo Nuevo® is specially designed for facilities where robust products are a must.

Comfortable lumbar support and ergonomically correct style for comfort and easy egress.

Extremely durable, 1/4" thick rotationally molded skin is impervious to fluids and puncture resistant to 184 lbs.

Meets the stringent ANSI/BIFMA X5.4-2005 furniture standard, dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 750 lb static load while also Cal TB133 compliant.

Robust Durability

Smooth, exterior surface is impervious to fluids and highly puncture resistant, yet easy to clean and sanitize. Fabricated drip edge allows moisture to run off the chair and not into the base.

Seamless chemically resistant surface is easy to clean and sanitize for greater infection control.

TruColor™

Premium material is fully compounded for superior color, fire retardancy and quality assurance.

3 lb density polyurethane foam filling for cushioned comfort.

Testing Strong

Hondo Nuevo is compliant with multiple flammability standards, including CAL TB133, as well as the rigorous BIFMA 5.4 durability standard for lounge seating. It also is GREENGUARD and GREENGUARD Gold Certified after stringent testing showed it to be in compliance with the low emissions standards set by UL Environment for indoor facility use.

Sierra Series

At last, a complete line of lounge seating that combines intensive-use performance with the residential look of natural wood – the Sierra Series from Norix. There is no substitute for natural wood to create that soothing feel, residential look and sense of normalcy you're striving for. Constructed of natural oak butcher-block, the vertical end arms are designed to combine intensive-use durability with the beauty of natural wood. Each end arm is 1 3/4" thick, rounded for safety, and features a contemporary "sloped" design for comfort and stylish good-looks. Choose solid end arms or distinctive open end arm design.

Non-absorbent vinyl exterior rotationally molded over a tubular steel frame – then filled with soft, polyurethane foam.

Tested to 1,000 lb static load.

1 3/4" thick butcher-block red oak, rounded for safety, with sealer coat and satin finish coat to protect the wood.

Frame inside seat cushion is 2 1/4" diameter horizontal cross tubes structure of 18 gauge steel - to form a rigid interior framework and provide a secure means to connect cushions and end frames, as well as extend seating to two and three seat groupings.

3/8" tamper-resistant, Torx-head fasteners bolt right into the steel frame for a secure steel to steel connection.

Integra Armless

Integra chairs are specifically designed for intensive use applications, yet comfortable and lightweight. They're molded in one piece so you don't have to worry about assembled components coming loose. They're stackable and they pass the rigid California Technical Bulletin 133 Flammability Test.

Each chair weighs only 7 lbs so stacking 15 of them in a seven foot high space is easily accomplished.

Unique leg shape and 1 1/2" deep "X" ribs molded into the seat bottom for superior strength.

Molded from high-impact grade copolymer polypropylene with fire retardant additives. Passes the rigid CAL TB 133 compliant.

Progress Seating

Progress is a passive ergonomic stackable chair. With a living hinge molded into the backrest, Progress is designed to supply a high level of back comfort in both upright and relaxed sitting positions. With or without upholstery, the Progress chair looks good in any environment. Pick from many different fabric grades to go with black legs and you have an attractive combination to accent a training room, a classroom, a lobby or an office.

Living hinge for comfortable back flex.

Engineered to Endure. Tested to 750 lb static load and passes the stringent ANSI/BIFMA X5.1 furniture test.

Secure fitting leg without mechanical hardware

Stacks 12 chairs high in 80".

One-piece injection-molded high-impact grade copolymer polypropylene.

Legs are powder coated black aluminum.

Black

Gibraltar™ Series

At last, a collection of in-line seating that delivers intensive-use security and durability in a sleek, contemporary design. Gibraltar is designed to survive the rigors of continuous institutional use – and look great doing it.

TruColor™ Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Extremely durable one-piece molded polyethylene seat and back. Smooth, seamless non-absorbent surface is easy to clean.

2" diameter, 14 gauge tubular steel, bent and welded to provide arm or armless in-line seating. Standard configurations for 1 to 4 people.

Seat Color			Frame	

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1000 lb static load while also Cal TB133 compliant.

Heavy duty flat steel plate welded to the frame at each seat location to provide strength, support and a mounting platform on which the seat is securely attached.

Toughcare® Series

The Toughcare Series chairs are designed and engineered for critical environments, high traffic areas and intensive use applications. These chairs are rotationally molded in one piece from specially formulated fire retardant, high-impact polyethylene with UV stabilizers to reduce fading. Toughcare chair products can be ganged together, bolted down or weighted on-site for added security. All products compliant with the stringent California Technical Bulletin 133 Flammability Test procedure.

Rotationally molded, specially formulated, fire-retardant, high-impact polyethylene with ultraviolet light stabilizers (to reduce fading).

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 700 lb static load while also Cal TB133 compliant.

One-piece rotationally molded. Molded-in steel threaded inserts for optional ganging side-to-side, back-to-back or bolt-down applications.

Ergonomically designed for comfort without the use of foam for cushioning.

TruColor™ Premium material is fully compounded for superior color, fire retardancy and quality assurance.

Seat Color				

Boulder™ Series

Norix Boulder™ Series Beam Seats have been in use in lobbies and waiting areas throughout the world ... and are still going strong and looking good. Why? Because they're built to last, with powder coated tubular steel frames, welded steel plate seat supports, washable molded polyethylene seats, super heavy-duty glides and 9 tamper-resistant screws to hold each seat in place.

TruColor™ Premium material is fully compounded for superior color, fire retardancy and quality assurance.

One-piece seat and back. Smooth maintenance free surface allows for easy cleaning. Molded-in threaded steel inserts provide for tamper-resistant attachment to base frame.

Flat steel plate welded to the frame at each seat location to provide strength, support, and a mounting platform on which the seat is attached.

Tamper-resistant floor protecting glides (or bolt-down).

Engineered to Endure. Dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 1,000 lb static load while also Cal TB133 compliant.

Seat Color					Frame

Max-Master Series

Engineered for superior strength and durability, the Max-Master Series is particularly well suited for dining halls and dayrooms where reliable performance is a must. Whether bolted to the floor or freestanding on adjustable glides, the distinctive individual seat/leg design provides superior stability than traditional pedestal tables. Compression molded composite seats, premium table top and unique steel leg design deliver an exceptional table for continuous daily use in challenging environments. ADA compliant options are available.

Choice of 3 tops with 4, 6 or 8 seats. Engineered and suitable for continuous daily use in an institutional environment.

Embedded T-nuts secure top to base with tight steel to steel connection for maximum long term reliability.

3" diameter, 14 gauge steel tubing.

13" diameter high density color impregnated compression molded composite that is highly scratch and stain resistant.

Oasis Cafeteria Series

If your environment demands a more robust solution for cluster seating, your search is over. The new Oasis™ Series is designed and engineered specifically for dayrooms, dining halls and visitation areas. Oasis is perfect for situations where users need more back support than traditional stools provide. ADA compliant options are available.

45 lb density M3 grade particle board, with embedded T-nuts for securing the top to the base.

One-piece seat and back. Smooth, non-absorbent surface is easy to clean.

Molded-in threaded steel inserts provide for tamper-resistant, "steel-to-steel" attachment to reinforced seat support plate.

Tested to 1,000 lb static load.

Ergonomic seats provide back support and swivel for easy access and egress.

Premium TruColor™ material is fully compounded for superior color, fire retardancy and quality assurance.

Heavy-duty cluster seating. Designed and engineered specifically for intensive-use environments such as dayrooms and dining areas.

Leg Style Series

When you start with 4" diameter 14 gauge tubular steel legs fully welded to 1/4" steel mounting plates, you end up with an incredibly strong, stable and durable table. The legs are joined to the top using tamper-resistant screws connected to embedded T-nuts, for a secure steel-to-steel connection. Optional 2 1/2" legs provide an attractive residential alternative. Legs are solid as a rock. Lean on it with all your weight. The Leg Style Table won't wobble or tip.

Permanently bonded to a core of 45 lb density M3 grade particle board with embedded T-nuts for securing top to base with a metal-to-metal connection.

Heavy duty leg style tables built for stability. Engineered and suitable for continuous daily use in an institutional environment.

Product tested to 1,000 lb static load.

Steel tubing welded to steel plate for attaching top.

Bottom of leg sealed by fully welded inset threaded to accommodate a tamper-resistant adjustable leveling glide.

X-Base Series

Years ago, we were challenged to design an institutional-grade table that defined each person's space and hindered the passing of contraband from one individual to another on the opposite side. Our answer was the popular, rugged X-Base Table with its unique "X" base design. Today, the X-Base Table is used in high-security and special needs facilities all across the country.

Selected material permanently bonded to a core of 45 lb density particle board with embedded T-nuts for securing top to base.

1 5/8" thick 45 lb density particle board, sandwiched between 1/8" thick hardboard and faced both sides with .050" thick high pressure laminate and banded on three exposed edges with heavy duty T-molding that is glued and steel pinned every 12 inches.

Heavy duty, tamper-resistant, durable "X" base style. Engineered and suitable for continuous use in an institutional or correctional environment.

Product tested to 1000 lb static load.

Forté™ Occasional Series

Free standing occasional tables can be optionally ganged with lounge seating for intermediate or corner tables. Choose one of three base options – wood, steel or molded polymer – and pair with your choice of molded polymer or laminate top with permanently affixed urethane edge. All tops come with embedded T-nuts for a secure steel-to-steel connection.

Decorative high pressure laminate is permanently bonded to a core of 45 lb density particle board with embedded T-nuts for securing top to base.

Polyurethane edge is radiused for safety and pressure fused to the top, rendering it firmly attached and highly sanitary. 1 3/4" thick edge profile.

Bases available in Wood Leg, Steel Leg and Roto-Mold Plinth.

Jupiter Series

Sometimes you want a table that is easy to move around. Other times you'd like that table to stay in one place, but you don't want to bolt it to the floor. Enter the Norix Jupiter Table! Jupiter is designed to be weighted on site to maintain space flexibility and allow for efficient floor maintenance as the needs of an environment change. Loading the base with up to 300 pounds of sand keeps the table solidly in one place.

Special 1 1/2" thick table top for additional strength.

Selected material permanently bonded to a core of 45 lb density particle board with embedded T-nuts for securing top to base.

Base: Rotationally molded, specially formulated, fire-retardant, high impact polyethylene with ultraviolet light stabilizers (to reduce fading).

Molded edge is radiused for safety and comfort, pressure fused to the top, rendering it firmly attached and highly sanitary.

Slightly textured maintenance free surface allows for easy cleaning.

Multi-Purpose Series

Most commercial tables are put together with easily removed screws, nuts, bolts, screw-out glides and snap-on parts. Norix created the Multi-Purpose Series of tables specifically to avoid those attributes so you don't have to think about the possibility of injury by altered furniture parts.

45 lb density M3 grade particle board with embedded T-nuts sandwiched with decorative laminate and backer sheet.

Product tested to 500 lb static load.

Edge is routed to receive glued and pinned black vinyl T-molding. 1 1/4" thick edge profile.

Heavy-duty construction with commercial grade laminate surface and glued and pinned T-mold edge. Legs fastened to embedded T-nuts.

12 gauge steel tubes, fully welded and sealed on exposed ends. Glides adjust for leveling, but are tamper-resistant as a security precaution.

CorrecTable® Series

You're looking for a lightweight folding table that is suitable for continual daily use. You don't want a table that has screws, nuts or bolts that can be taken apart - you want a table that can stand up to the rigors of an institutional environment. You want the Norix CorrecTable®.

Formulated for outdoor exposure with minimal fade or thermal stress cracking (indoor storage recommended).

15 gauge 2 1/2" wide Z channel spans full length on both sides. Channels support legs and are attached to top with security fasteners.

Blow-molded with a waffle designed bottom for exceptional strength mounted to a full length 14 gauge steel frame.

Top Color

Leg Color

Folding wishbone design with no open ends.

Product tested to 500 lb static load.

Full circumference welds. Tamper-resistant feet. Gravity style slide lock.

Custody® Sealed Seam Mattresses

Comfort Shield® Sealed Seam Mattresses feature 100% sealed seams that are radio frequency welded and guaranteed not to break – for enhanced hygiene, security and durability.

Black Max is a highly durable mattress and is suitable for the most extreme-use spaces in your facility. That's because the mattress is constructed with 100% sealed seams that are reinforced with maximum security stitching for unsurpassed seam strength. It's also constructed with an extremely impervious, polyurethane coated cover with reinforcing ripstop scrim. All of this makes Black Max highly resistant to constant-use, bodily fluids, bed bugs and other challenges you may find in correctional setting.

Our Marathon mattress is the most durable correctional mattress on the market and can stand up to the most extreme spaces in your facility. Truly innovative, the product has a seamless exterior that is rotationally molded in one piece, not sewn or stitched. The rotationally molded vinyl skin is 200 mm thick and is filled with soft polyurethane foam for comfort. An integrated double-sided pillow adds safety and security while the heavy weight of the product deters it being used as a barrier or weapon. Non-absorbent and fluid resistant. No seams for bedbugs to invade. Like its name implies, Marathon goes the distance.

Silver Secure is the perfect mattress for those facilities needing more durability and security than what is found in your typical corrections mattress. It's constructed with a durable polyurethane-coated cover with reinforcing ripstop scrim, along with enhanced break strength for added security. An applicable product for the intensive-use found in correctional environments.

Norix Blue is a durable mattress with infection control features that make it suitable for daily use in critical environments. It features 100% sealed seams for unsurpassed seam strength and a durable polyurethane coated cover. Day in, day out, Norix Blue will perform well above your expectations.

Color

Attenda® Series

Correctional professionals have long recognized that traditional furniture is completely unsuitable for their critical environments. The Attenda Series is designed to provide the strength, safety and cleanability required for the daily rigors of institutional living — in a sleek, contemporary look. The key to Attenda's strength and durability is its advanced construction. Molded in specially formulated, high-impact, fire-retardant polyethylene, each Attenda product is structurally enhanced for increased strength and durability. They are solid as a rock, yet feature seamless construction with rounded corners for added safety and security. Each piece is designed to be attached flush to the wall or floor and can be easily sanitized. Attenda's unparalleled performance features make it uniquely suited for constant-use environments.

Product Color

Laminates

Platform Beds

The cornerstone of the collection is the Attenda Bed — designed and engineered to exceed the expectations of practitioners who have tried everything. The Attenda Bed mounts in a corner, against a wall or free standing. Sturdy and seamless, the Attenda bed features a raised lip around the bed deck for easy clean-up. An optional wall-mount headboard adds a touch of wood-grained style, with institutional durability.

Platform Bed Riser

Free standing or floor mounted bed riser designed to pair with the Attenda Floor Mount Bed for staff friendly bed height, easy egress and convenient use of a lift device. Optional riser raises 15" sleep surface an additional 8" and features a knock out access port and push cap for ballasting in free standing applications. Bed fastens securely to riser at the existing anchor locations of the bed (tamper-resistant connecting hardware included). Pairs with ATN100 or ATN101 beds (retrofit capable). Available in Moss or Fossil colors.

Space-Saver Bed

The Attenda Space Saver Bed has a smaller footprint to maximize unencumbered floor space in the room. Bolts securely to the floor.

Space-Saver Bed With Storage

Maximize unencumbered space with the new Attenda® Space Saver Bed With Storage with integrated storage compartments. This floor-anchored bed is rotationally molded in high-impact polymer, then filled with rigid structural foam for added strength and sound absorption. The Space Saver Bed is safe, secure, ligature resistant and built to last.

Nightstand

The Attenda Nightstand is the ideal companion piece to the Attenda Platform Bed. Open compartments provide for accessible storage of personal articles while maintaining easy visual inspection. Attenda's advanced construction delivers unsurpassed performance in critical environments and makes it uniquely suited for intensive-use applications. Decorative High Pressure Laminate (HPL) top with durable resin edge is optional.

Restraint Rings

Attenda Restraint Rings are 1/4 inch thick steel fasteners. Made with stainless steel, has a pin that is used to secure it in place.

Open Chest

The Attenda Open Chest is a particularly effective storage solution for an Attenda room ensemble. Open compartments provide ample storage capacity while maintaining easy visual inspection. Decorative High Pressure Laminate (HPL) top with durable resin edge is optional.

Desk & Stool

Advanced construction for intensive-use applications in critical environments. Molded in high-impact polymer, then filled with rigid structural foam. Seamless construction with rounded corners. Easy to clean. Bolt-down installation for safety and security.

NEW! Wall Mount Desk

The Wall Mount Desk is a new addition to the Attenda® Collection that is ideal for detention environments in adult and juvenile facilities where optimizing floor space is essential. The product is ADA compliant and is available with or without a decorative laminate top. The product also is molded in high-impact polymer for maximum durability and cleanability and filled with rigid structural foam for sound absorption.

Shelf

The Attenda Wall Mount Shelves are the go-to solution when free unencumbered space is at a premium. Open cubbies provide ample storage space while maintaining easy visual inspection.

Wardrobe

Advanced construction for intensive-use applications in critical environments. Molded in high-impact polymer, then filled with rigid structural foam. Seamless construction with rounded corners. Easy to clean. Bolt-down installation for safety and security.

Removable Restraint Rings

Attenda Restraint Rings are 1/4 inch thick steel fasteners. Made with stainless steel, has a pin that is used to secure it in place.

Panel Base Bed

Available in Panel Base Bed, Bunkable Panel Base Bed and Panel Base Bunk. Steel deck, steel end frames for optional bunking. Ships K.D. Optional headboard, footboard, bunk-locking clamps, bottom closure panel, ladder and safety rails.

Frame Style Bed

Frame style bed with steel deck mechanically fastened to steel end frames. Available in Bunkable Frame Style Bed or Frame Style Bunk.

Spring Bed Series

Spring deck bed with deck mechanically fastened to steel end frames. Available in Bunkable Spring Deck Bed and Spring Deck Bunk Bed. End frames have plastic adapter caps inserted into vertical members to allow bunking without additional parts or tools.

Lift Deck Series

Lift deck bed with recessed padlock hasp and gas springs with dynamic dampening. Available in Lift Deck Bed and Bunkable Lift Deck Bed.

Nightstand

Steel nightstand with two tamper-resistant drawers. Drawers feature padlock hasp locking mechanism. Institutional-grade laminated top. Optional matching laminated drawer fronts.

Chest

Steel chest with institutional-grade laminated top. Tamper-resistant drawers. Available in 2, 3 and 5 drawer chests. Drawers feature padlock hasp locking mechanism. Optional matching laminated drawer fronts.

Drawer Locker

The Titan® Drawer Locker is sized to fit underneath Titan® Bunkable Frame Style Beds. The drawer slides are welded to the drawer body and are built with no moving parts. Features a padlock hasp locking mechanism, non-adjustable floor glides, ganging capability and a 2" caster that supports the front of the drawer when open.

Table Desk

Steel desk with institutional-grade laminated top. Includes pencil drawer. Adjustable floor leveler glides.

Pedestal Desk & Carrel

Steel desk with non-removable drawers on pedestal and full width pencil drawer. Steel carrel with non-removable shelf. Attaches easily to desk top via pre-drilled holes in bottom of carrel.

Wardrobe

Freestanding wardrobe with one fixed shelf and safety J-bar for hanging clothes. Integrated recessed finger pull. Adjustable floor leveler glides. Available in Single Wardrobe and Double Wardrobe. Ships K.D. in two boxes.

Titan® Series

Looking for residential furniture that can endure years of intensive-use in your facility's demanding environment? The Titan® Series from Norix – a complete line of steel case goods that combines functional versatility with the institutional durability of all-steel construction. There's no substitute for the strength, safety and durability of steel furniture, and Titan has emerged as the product of choice in institutional settings. Titan was designed to perform in the most challenging environments. Titan is an ideal choice to replace problem wooden furniture. Titan products are heavy...and heavy duty. You don't have to worry that they'll be invaded by bedbugs, picked apart or broken through intensive-use. Steel stands the test of time, and provides the best value option. Titan delivers worry-free performance.

Detention Furniture

Ironman® Steel Bunks

Single bunks. Double bunks. Triple Bunks. Floor-mount or wall-mount. Fully welded or bolt-together with tamper-resistant hardware. With or without attached slide rails for the exclusive Norix property boxes. Constructed for quality and reliability. Not built down to meet a low price. Available in 10 and 12 gauge.

Tank Box Property Storage

Specially formulated structural plastic, pound for pound, twice as rigid as steel. Resistant to impact, stains and scratches. Won't rust. Passes CAL TB 133. One-piece, injection molded, maintenance free construction.

Citadel Property Storage

Next generation product from Norix, industry leader in detention-grade furnishings and equipment. Rounded edges for enhanced safety, security and structural integrity.

Cuff Bench

Bolt-down, floor or wall mounted 12 gauge steel benches with cuff rings for transit and intake areas.

Detention Accessories

Fasport™

Fasport is a multi-purpose access port, designed to provide enhanced safety and security in the deployment of tactical devices. Mounts easily in glazing panels. It is for use in control rooms, dayrooms, corridors, etc. Opens quickly from the secure side. Snaps shut to re-secure. Also is a secure package pass for keys, paperwork, etc.

Key Cabinet

A place for everything. Everything in its place. Keep your security keys in a locked steel cabinet.

Pistol Locker

Keep your officers' pistols in a locked steel cabinet. Monitor the cabinet if you want to, but the solid construction will convince you that supervision is an option. Available in 3, 4, 8, 9 or 12 compartment options.

Package Pass

The stainless steel Package Pass has interconnected doors that operate like a sally port. One door must be closed before the other can be opened. Vision panel in rear door allows operator to view contents of the unit.

Stack-A-Bunk®

Overcrowded facilities and emergency temporary bunking can be a serious problem if you aren't prepared. Most courts have made it unlawful to sleep inmates on the floor. The Norix Stack-A-Bunk solves the problem with a washable, stackable sleep surface that doesn't have component parts which can be turned into a weapon.

Dayroom Podium Desk

Engineered and suitable for daily use in a correctional environment.

Speaker Port

6" diameter cast stainless steel port provides natural voice transmission. Level III bullet-resistant. This product is available for interior or exterior use.

Deal Tray

Stainless steel drop-in tray is recessed into counter top opening for flush appearance.

Cell Desks & Stools

Pass Hopper

Cut, formed and welded stainless steel assembled to fit countertop, window or wall openings. Steel and stainless steel on exposed surfaces. #4 finish stainless steel.

Ball Clothes Hooks

Single collapsible safety hooks or groups of four with optional 8" deep x 18" long bookshelf. Ball and stem style in stainless only.

Washroom Accessories

Towel Hooks

Holds towels or clothing articles safely without the use of protruding pegs or hooks. The chase or surface mounted towel hooks come in stainless steel. Choose from single towel hooks or groups of four.

Wall Mirror

One-piece #430 stainless steel. Highly polished #8 finish. Two standard sizes: 9 1/2" x 11 1/4" and 11 1/4" x 17 1/4". Mount direct to wall or with an optional 1/4" thick steel backer plate. Optional embed plate also available.

Recessed Shelf

No sharp corners or edges protruding from the wall to inflict injury. The chase-mounted recessed shelf comes in easy-to-clean stainless steel.

Security Grab Bar

Safety is the issue and Norix provides the solution. The Security Grab Bar has a safety gap-filler between the round tube bar and the wall. Styles in stainless steel. Standard sizes in 24", 36" and 42". "L" shape bar also available.

ADA Shower Seat

Stainless steel detention-grade recessed shower seat. ADA version meets ADA 4.21.3 & 4.26.3 requirements for L-Shaped Shower Seats.

Soap Dish

Your choice! Pick the soap dish to suit your style. Surface mount available in front or chase mount. Recessed available in chase mount. All in easy-to-clean stainless steel.

Toilet Paper Holder

Front or chase mount. In easy-to-clean stainless steel.

InteleStation® Series

You've made the decision to implement non-contact visitation to streamline the processing of inmate and visitor contact. Now you need to consider how to protect your investment in the expensive video and voice communications equipment* that will be installed in your facility. Norix offers the most complete range of secure cabinets designed, engineered and constructed specifically for non-contact visitation.

Heavy Duty Laminate

Laminate InteleStation® cabinets are constructed from heavy-duty 45 lb density particle board sandwiched between .050" thick heavy duty high-pressure laminate. Select either an enclosed cabinet with 3/8" polycarbonate protective view screen, or "open style" cabinet suitable for surface mounting your electronic equipment or telephones. Choose wall-mount or floor mount units, with or without attached seats. ADA compliant options are available.

Cubicle

Privacy Cubicles available in two widths – 36" and 60". Curved side panels provide line-of-sight supervision. Choose adjustable floor glides or bolt-down option.

Econo-Box

For the most cost-effective solution, choose our Econo-Box wall-mounted unit. Includes 3/8" polycarbonate protective view screen. Available in either stainless steel or black powder coated steel. Choose standard wall-mount unit, or model with attached seat.

Stainless Steel

The same configuration options offered in the laminate versions are also available in 12 gauge stainless steel cabinetry. Top section and minimized writing surface are sloped to discourage placement of drinks and cups.

DuraVision™ Mirrors

DuraVision polycarbonate mirrors from Norix are designed specifically for the challenging conditions found in correctional facilities. The strength of polycarbonate combined with a solid, full foam backing and a unique steel frame design ensures these mirrors exceed the breakability and tamper resistance of any other product on the market.

Norix Installation Services

Norix correctional furniture is safe, secure and built to last ... providing outstanding long-term value and peace of mind for your staff. For facilities not using contractors or consultants, it makes sense to reinforce the benefits of the furniture with a installation from Norix.

Benefits of Installation Services:

- Expert installation services, performed by professionals experienced in all facility installations.
- Complex installation capabilities, including field drilling into concrete, secure bolt-down and application of security caulk.
- All labor, installation hardware and materials included.
- Seamless transaction on same purchase order as furniture.
- Reinforces product warranty.
