## Titan® Series

Looking for residential furniture that can endure years of use in your facility's demanding environment? Look no further than the Titan® Series from Norix® – a complete line of steel case goods that combines functional versatility with the institutional durability of all-steel construction. There's no substitute for the strength, safety and durability of steel furniture, and Titan® has emerged as the product of choice in institutional settings. Why? Because Titan® was designed to perform in the most challenging transitional housing environments. Titan® products are heavy and heavy duty. You don't have to worry that they'll be invaded by bedbugs, picked apart, or broken through intensive-use. Steel stands the test of time, and provides the best value option. Day in and day out – year after year – Titan performance.

## Frame Style Series

Frame style bed with steel deck mechanically fastened to steel end frames. Available in Bunkable Frame Style Bed or Frame Style Bunk. Engineered and proven suitable for continuous use in a transitional living environment.

## Loft Bed Series

Frame style tall end frames configured as a height-adjustable unit. Available in Steel Deck and Spring Deck. Bed deck accommodates a 36" x 80" mattress. Full length laminated plywood Desk Top is mechanically fastened to the end head and foot frames, and fully supported along the back with a 1" x 2" rectangular steel Stabilizer Bar, and an additional 1" x 4" steel C-Channel Support Bar beneath the desk.

## Spring Bed Series

Spring deck bed with deck mechanically fastened to steel end frames. Available in Bunkable Spring Deck Bed and Spring Deck Bunk Bed. Engineered and proven suitable for continuous use in a transitional living environment. End frames have plastic adapter caps inserted into vertical members to allow bunking without additional parts or tools.

## Lift Deck Series

Lift deck bed with recessed padlock hasp and gas springs with dynamic dampening. Available in Lift Deck Bed and Bunkable Lift Deck Bed. Engineered and proven suitable for continuous use in a transitional housing environment.

## Family Bed

Unique double bunk offers full size 54" x 80" sleep surface on lower bunk and 36" x 80" size on upper bunk. Includes headboards, foot boards and side rails. CPSC compliant. Ships K.D.

## Panel Base Bed

Available in Panel Base Bed, Bunkable Panel Base Bed and Panel Base Bunk. Steel deck, steel end frames for optional bunking. Optional headboard, footboard, bunk-locking clamps, bottom closure panel, ladder and safety rails.

### Remedy Sealed Seam Mattresses

## Nightstand

Steel nightstand with two non-removable drawers. Drawers feature padlock hasp locking mechanism. Institutional-grade laminated top. Optional matching laminated drawer fronts.

## Wardrobe

Free-standing wardrobe with one fixed shelf and safety J-bar for hanging clothes. Integrated recessed finger pull. Adjustable floor leveler glides. Available in Single Wardrobe and Double Wardrobe.

## Chest

Steel chest with institutional-grade laminated top. Tamper-resistant drawers. Available in 2, 3 and 5 drawer chests. Drawers feature padlock hasp locking mechanism. Optional matching laminated drawer fronts.

## Table Desk

Steel desk with institutional-grade laminated top. Includes pencil drawer. Adjustable floor leveler glides.

## Drawer Locker

The Titan® Drawer Locker is sized to fit underneath Titan® Bunkable Frame Style Beds and is engineered and proven suitable for continuous use. The drawer slides are welded to the drawer body and are built with no moving parts. This personal storage locker features a padlock hasp locking mechanism, non-adjustable floor glides, ganging capability and a 2" caster that supports the front of the drawer when open.

## Pedestal Desk & Carrel

Steel desk with non-removable drawers on pedestal and full width pencil drawer. Steel carrel with non-removable shelf. Attaches easily to desk top via pre-drilled holes in bottom of carrel.

## Stack-A-Bunk®

Overcrowded facilities and emergency temporary bunking can be a serious problem if you aren't prepared. The Norix Stack-A-Bunk® solves the problem with a washable and stackable sleep surface.

## Protégé™ Series

If you are looking for highly durable shelter furniture with a sleek design, look no further than Norix's Protégé™ series – a value driven series of products designed for constant use in environments that historically have been institutional in nature.

### Bunkable Bed

All steel construction with welded tubular bed deck and 36" x 80" sleep surface static load tested to 600 lbs. Integrated steel headboard and footboard is available with optional wood grain laminate headboard/footboard. With optional Bunk Bed Kit, bunkable end frames stack securely to create a bunk bed. Assembles in minutes with simple tools, all hardware included.

### Bunk Bed

Two sleep surfaces. Includes a ladder and safety rails for each side of top bunk. Four different ladder attachment locations for maximum space flexibility. Bed may be anchored to wall or floor. Optional adjustable leveler glide kit is available. Designed to meet CPSC guidelines for bunk beds.

### Locker

This 18 inch wide freestanding single door locker is perfect for personal storage such as shirts, pants, jackets and other apparel that needs to be hung up.

### Nightstand

The Protégé™ Nightstand's cabinet body and shelves are constructed out of 19-gauge steel, while the top is made of a high-impact density fiberboard and durable high pressure laminate.

### Under Bed Storage

This two-drawer system fits perfectly underneath our Protégé™ Beds and features adjustable floor glides and a hasp locking mechanism for privacy and security.

## Safehouse® Series Wood Case Goods

The Safehouse® Series combines safety and durability – in a homelike all-wood collection. After research and consultation with behavioral healthcare professionals, Norix designed the Safehouse collection to provide a warm, yet secure haven for residents – with client safety as the primary consideration. With built-in safety features like sloped tops, rounded edges and SafeJoint™ concealed joinery, Safehouse offers practitioners peace of mind, plus the therapeutic appeal of real wood. Norix exclusive Dura-Ply™ construction ensures that Safehouse products will stand up to the demands of your challenging environment. 5-year limited replacement warranty for defects in materials and workmanship.

## Platform Bed

Residential room furnishing designed to provide a warm, yet secure haven for residents. The Safehouse Platform Bed anchors a room ensemble with the warmth of wood and the safety of durable construction. Fits a standard 36" x 80" mattress.

Remedy Sealed Seam Mattresses

## Captains Bed

Residential room furnishing designed to provide a warm, yet secure haven for residents. The Safehouse Captains Bed anchors a room ensemble with the warmth of wood and the safety of durable construction. 2 built-in open storage compartments add space efficient storage. Fits a standard 36" x 80" mattress.

Remedy Sealed Seam Mattresses

## Shelves, Desks, Nightstands & Wardrobes

Dura-Ply™ construction. "Open-shelf" design for enhanced safety and security. Solid  $\frac{3}{4}$ " back panel for enhanced structural integrity. Catalyzed vinyl sealer coat plus catalyzed varnish top coat for wear resistance.

**Options:** Ganging Kit, Bolt-Down Kit  
**Testing:** GREENGUARD Gold Certified, California Technical Bulletin 133, British Standard BS 7176: 2007; ASTM E1537 NFPA 261, UL1056, UL94 H, BIFMA 5.4 15.4.2, 750 lb Static Load

Seamless chemically resistant surface is easy to clean and sanitize.

3 lb density polyurethane foam filling for cushioned comfort.

Extremely durable, 1/4" thick rotationally-molded skin is impervious to fluids and puncture resistant to 184 lbs.

Meets the stringent ANSI/BIFMA X5.4-2005 furniture standard, dynamic drop tested to a relative impact force of two times BIFMA 5.4 15.4.2 and 750 lb static load while also Cal TB133 compliant.

Premium TruColor™ material is fully compounded for superior color consistency and durability.

## Robust Durability

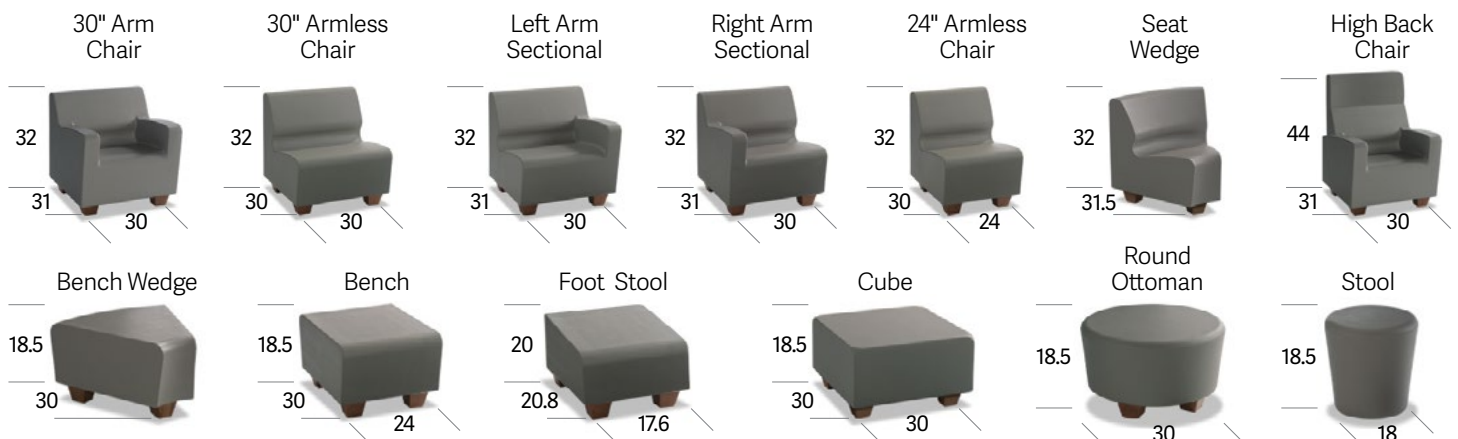

Smooth, exterior surface is impervious to fluids and highly puncture resistant, yet easy to clean and sanitize. Fabricated drip edge allows moisture to run off the chair and not into the base.

## Tested Strong

Hondo Nuevo® is compliant with multiple flammability standards, including CAL TB133, as well as the rigorous BIFMA 5.4 durability standard for lounge seating. It also is GREENGUARD and GREENGUARD Gold Certified after stringent testing showed it to be in compliance with the low emissions standards set by UL Environment for indoor facility use.

## Modern Design

The Hondo Nuevo® Series combines modern design, ergonomically correct style and comfortable lumbar support with a beautiful, thick vinyl skin and 3 lb density polyurethane foam filling. This unique combination of superior durability, comfort and style is available in several seat, bench and wedge options to create flexible modular seating arrangements. Molded exterior skin tops are attached with tamper-resistant fasteners to your choice of molded plinth, steel, or molded wood grain leg base options.

## Vesta™ Series

The Vesta™ seating line excels in transitional housing environments due to its robust and minimalist design. The sweeping form fully contacts the floor removing contraband concealment areas and ligature points. Modern style, combined with carefully studied color options, can help humanize spaces for everyone.

## Robust Durability

Vesta™ is roto-molded and tamper-resistant to help create ultra-secure spaces. Vesta is able to be ballasted to prevent lifting and throwing. Available in Guest and Lounge and come in arm and armless, with and without upholstery.

# Mix-Up™

Mix-Up™ is a furniture line from Norix that allows you to use five different-shaped products to produce endless configurations. This diverse series is perfect for lobbies and any other areas where playful, attractive and durable furniture is applicable. Endless upholstery options and three base colors allow facilities to pick an aesthetic that perfectly matches their environment. Choose products that are round, square, wedge and rectangle. Then ... well ... mix them up!

Five different shapes allow for endless configurations.

High density foam interior provides stability and comfortable sitting.

Enormous upholstery options in different grades, colors, patterns, materials and price points.

High-impact polyethylene bases available in three colors.

## Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl or fabric for your facility.

# Harmony™

The Harmony™ Series blends form and function to deliver the unique combination of exceptional durability and a residential look for facilities that need residential products for their challenging environments. Limited lifetime warranty for structural integrity. In spite of that rugged interior, the Harmony™ Series is elegant, versatile and aesthetically pleasing.

Seat and back junction available as standard fit or with an extended clean out. Backs available in square and round.

Hundreds of upholstery options.

Generous seat width and cushioned support provide comfortable lounging.

Injection-molded nylon feet are engineered for strength and to protect floors.

Robust fully welded steel frame for maximum strength and durability.

Highly durable polyurethane arm caps are one-piece, full length, and securely bolted to steel frame.

## Superior Construction

Interior steel frame for unparalleled structural integrity. Arm chair weighs 130 lbs. Love seats, sofas, and benches offer the same construction with more seating options.

## Upholstery

Our upholstery comes in a variety of performance grades so you can choose the appropriate vinyl or fabric for your facility. Both seat and back cushions are field replaceable.

# Element™

Element™ is a designer-friendly series of lounge furniture that provides facilities with reliable performance. Mix and match the Element™ Lounge Chair, Love Seat and Sofa throughout your facility depending upon the needs of spaces.

## Durability

Element™ is highly durable due to construction and the materials. On the inside, Element™ is supported by a sturdy milled-wood frame that is connected with metal hardware to ensure durability and longevity. On the outside, the arm rests are protected and covered with a specially formulated arm cap. These arm caps are available in black and are mounted to the wood frame with steel T-nuts.

## Features and Benefits

Whether you are picking a lounge chair, love seat or sofa, Element™ will add to or create an aesthetic appeal in lounges, lobbies or other areas in your facility where you need attractive furniture. Additionally, the series was designed to last and is appropriate for constant-use environments in facilities that see lots of traffic.

Lounge Chair

Love Seat

Sofa

Clean out between seat and back allows dirt and debris to fall to the ground rather than gather in chair.

Upholstery available in a variety of patterns and grades.

Specially formulated arm cap attached to frame with T-nuts.

Injection-molded nylon feet are engineered for strength and to protect floors.

Frame is made of heavy duty milled wood for strength and durability.

Generous seat width and cushioned support provide comfortable lounging.

# Integra Armless

Integra chairs are specifically designed for transitional living applications, yet comfortable and lightweight. They're molded as one-piece so you don't have to worry about assembled components coming loose. They're stackable and they pass the rigid California Technical Bulletin 133 Flammability Test.

Each chair weighs only 7 lbs so stacking 15 of them in a seven foot high space is easily accomplished.

Unique leg shape and 1 1/2" deep "X" ribs molded into the seat bottom for superior strength.

Molded from high-impact grade copolymer polypropylene with fire retardant additives. Passes the rigid California Technical Bulletin #133 Flammability Test.

## Leg Style Series

When you start with 4" diameter 14 gauge tubular steel legs fully welded to 1/4" steel mounting plates, you end up with an incredibly strong, stable and durable table. The legs are joined to the top using tamper-resistant screws connected to embedded T-nuts, for a secure steel-to-steel connection. Optional 2 1/2" legs provide an attractive residential alternative. Legs are solid as a rock. The Leg Style Table won't wobble or tip. Lean on it with all your weight. That's peace of mind.

Heavy duty leg style tables built for stability. Engineered and suitable for continuous daily use in a transitional environment.

Permanently bonded to a core of 45 lb density M3 grade particle board with embedded T-nuts for securing top to base with a metal-to-metal connection.

## X-Base Series

Years ago, we were challenged to design a table that defined each person's space. Our answer was the popular, rugged X-Base Table with its unique "X" base design. Today, the X-Base Table is used in a variety of facilities all across the country.

Product tested to 1,000 lb static load.

Selected material permanently bonded to a core of 45 lb density particle board with embedded T-nuts for securing top to base.

1 1/2" thick 45 lb density particle board, sandwiched between 1/8" thick hardboard and faced both sides with 0.05" thick high pressure laminate and banded on three exposed edges with heavy duty T-molding that is glued and steel pinned every 12 inches.

Heavy duty, tamper-resistant, durable "X" base style. Engineered and suitable for continuous use in a transitional living environment.

## Multi-Purpose Series

Most commercial tables are put together with easily removed screws, nuts, bolts, screw-out glides and snap-on parts. Norix created the Multi-Purpose Series of tables specifically to avoid those attributes so you don't have to think about your table breaking down.

Edge is routed to receive glued and pinned black vinyl T-molding. 1 1/4" thick edge profile.

Heavy-duty construction with commercial grade laminate surface and glued and pinned T-mold edge. Legs fastened to embedded T-nuts.

Product tested to 500 lb static load.

45 lb density M3 grade particle board with embedded T-nuts sandwiched with decorative laminate and backer sheet.

12 gauge steel tubes, fully welded and sealed on exposed ends. Glides adjust for leveling, but are tamper-resistant.

45 lb density M3 grade particle board, with embedded T-nuts for securing the top to the base.

One-piece seat and back. Smooth, non-absorbent surface is easy to clean.

Ergonomic seats provide back support and swivel for easy access and egress.

Tested to 1,000 lb static load.

Molded-in threaded steel inserts provide for tamper-resistant, steel-to-steel attachment to reinforced seat support plate.

Heavy-duty cluster seating. Designed and engineered specifically for intensive-use environments such as dining areas.

Premium TruColor™ material is fully compounded for superior color consistency and durability.

## DuraVision™ Convex Mirrors

DuraVision™ polycarbonate mirrors from Norix are designed specifically for the challenging conditions found in shelters and transitional living spaces. The strength of polycarbonate combined with a solid, full foam backing and a unique steel frame design ensures these mirrors exceed the breakability and tamper resistance of any other product on the market.

## Behind the Reflection

Most convex mirrors you see in shelters are made from acrylic. When tested to withstand impact, they'll be the first to break into pieces. Our polycarbonate mirrors, with pure reflective coatings, are premium 3mm grade with a tensile strength of 9,400 psi. To further enhance the strength, we completely fill the cavity behind the mirror with high-density water blown urethane foam to limit the compression distance, thus eliminating the possibility of breakage from a severe blow. To make sure they stay in place, the DuraVision™ mirror perimeter is fully enclosed in a heavy duty powder coated steel frame that sits flush with the wall and ceiling and features countersunk screw holes to receive tamper-resistant fasteners.

## Eliminating Blind Spots

Once you identify the blind spot, it's a simple matter of selecting the DuraVision™ mirror best suited to the task.

## Filling a Niche

The half dome mirror is usually the right choice to observe blind corners to the right or left of the entry door. The 360° visibility of a full dome can be used effectively in open areas or at four way intersections or as a reflector with CCTV equipment. You'll find the quarter dome efficient and appropriate for corners and L intersections.

## A-Maze™

A kids furniture product from Norix, A-Maze™, is a one-seat wonder due to the endless configurations that can be created. Its six colors, secure construction and playful shape make this perfect for play areas or any other place where children may gather. This light-weight product can be moved and reconfigured as needed and is applicable to high-traffic and constant-use areas.

**Testing:** GREENGUARD Gold Certified

## Elle Series

The Elle Series Chair and Table is a fairy-tale take on kids furniture for facilities looking for a seating solution that is fun and safe for use by children. Both Elle products are available in six colors and are highly durable.

**Testing:** GREENGUARD Gold Certified

## Hex-It™ Series

Oh Hex! No, we aren't commanding you to put a spell on it. The name Hex-It™ actually is derived from the hexagonal shape of this kids seating and table solution from Norix. This multi-function marvel allows you to flip the product on one side and use it as a stool. Flip it on its other side and you have a table. It's an ideal kids seating solution with a fun shape that's ready to be configured to your space.

**Testing:** GREENGUARD Gold Certified
